Who: **Field Officer** · **Tax Consultant**

1 Record a visit

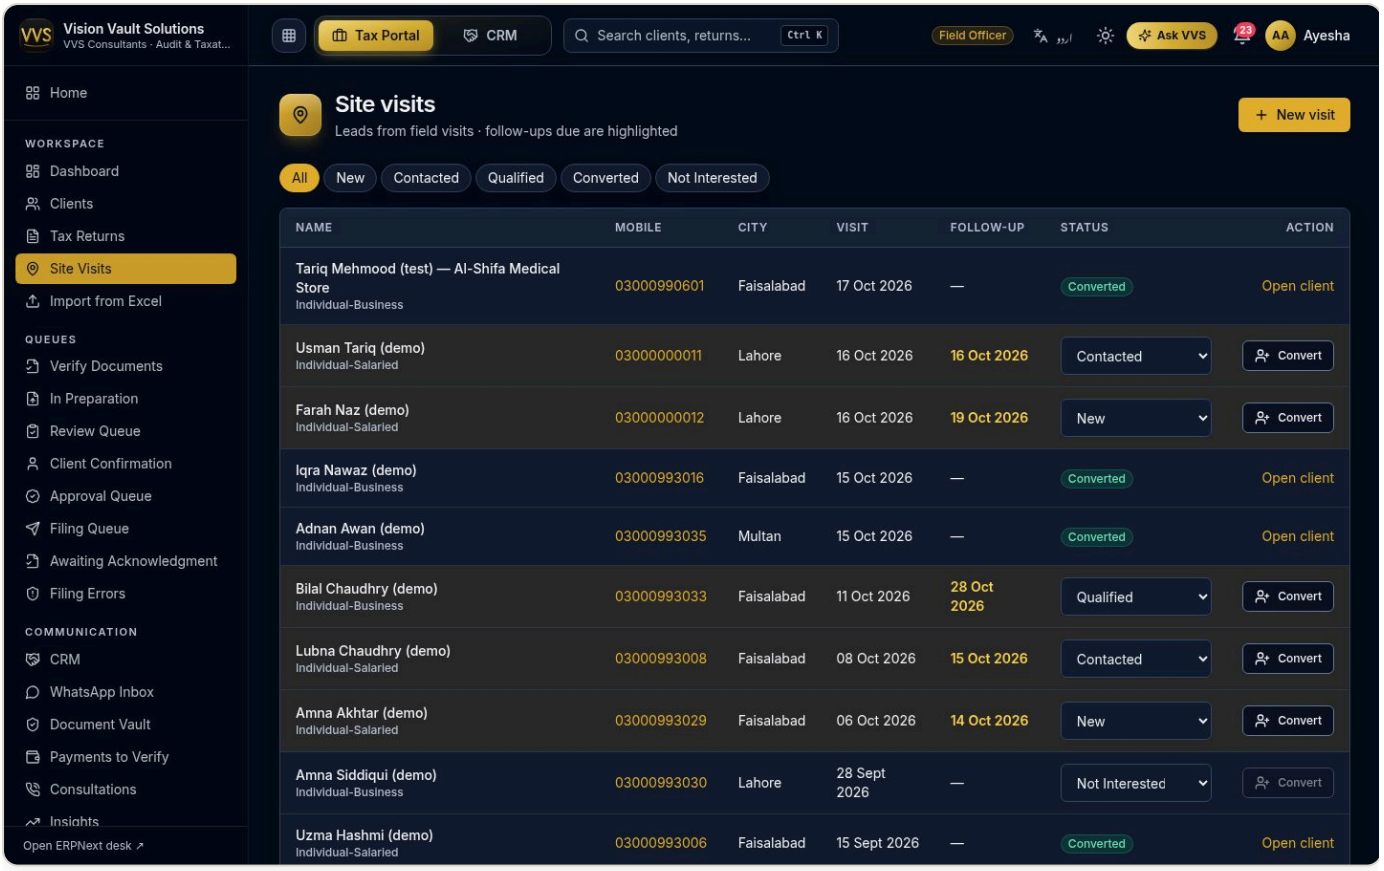

1. **Site Visits** → **New visit**: name, business, mobile, what they need, and the location.
2. Set a follow-up date; it shows on the dashboard and in the CRM.

New site visit.

2 Follow up and convert

1. The list shows each visit's status: New, Contacted, Converted.
2. **Convert to client** when the person agrees; the consultant takes it from there.

Site visits and their status.
